## (54) LIP-PROTECTIVE AGENT

### (57)Abstract:

PURPOSE: To provide a lip-protective agent effective to give moderate oiliness and moisture to the mucosa of lip and prevent the abnormal drying and chapping of the lip mucosa, by using a film-forming polymeric compound as a main component and adding a humectant and an oleaginous wax thereto.

CONSTITUTION: A film-forming agent comprising a polymeric compound such as PVA, polyvinyl pyrrolidone, CMC, etc., is used as a main component, and is added with (A) a humectant having excellent moisture-retainability and effective to give moistness to the dried skin and chapped skin and prevent the aging of the skin (e.g. glycerol, polyethylene glycol, sorbit, etc.) and (B) an oleaginous wax effective to supply and skin with moderate oiliness and prevent the chapping of the skin (e.g. olive oil, lanoline, squalane, etc.). The recovery of damaged mucosa can be promoted by the addition of vitamins effective to prevent the chapping of the skin and promote the flow of blood.
